BACKGROUND

Funding was included in the current year's budget for the purchase of new firefighter bunker gear. This purchase will bring the department closer to its goal of attaining NFPA 1971-Protective Ensemble for Structural Firefighting compliance for the 2007 standards for protective gear.

Experience and consultation indicates that the Globe G7 bunker gear meets NFPA 1971 standards and will provide excellent protection for fire fighting applications. Several brands and models of bunker gear were evaluated by the Fire Chief during a recent seminar. MES is the local provider of the gear, which was determined to be the best for our application at the best price. There has not been a significant change in price since the last request for bids and for the sake of continuity it is the Fire Chief's recommendation that we continue replacement with the Globe product. The conclusion has been drawn that this particular selection will best meet the needs of the firefighters of the La Vista Fire Department.
