The stakeholders meeting was attended by biking community members, business owners, persons with disabilities, and residents. All gave great insight to the mobility of La Vista. Between the two sessions, 50 were in attendance. The next step will be an input survey from the public.

- b. Discussion on Reflection Plaza, **Jason Allen, Parks Superintendent**

- Allen gave a presentation on the history of Reflections Plaza and where the city stands today with the project. In 2013, Central Park (the prior golf course area) became one focus of location for the Reflection Plaza, but location is still being discussed. Allen showed the different ideas that have been brought about such as landscaping, lighting, etc. La Vista Community Foundation has been raising money for the project. Staff will be bringing location and design options back to the Committee for recommendation to take to Council.

- c. Discussion and direction on results of Fall 2023 Park & Recreation Survey. **Heather Buller, Recreation Director**

- Buller went over and discussed the results of the Recreation focused Parks & Recreation Survey. The largest participation came from community-wide special events, the second largest participation was senior programming and youth sport leagues. The lowest numbers came from youth and teen programs at the Community Center. Staff has focused on increasing attendance for youth and teen programs. The Mayor's Youth Council has been gathering input from the local teens on what they would like to see and what would bring them to the Community Center. Staff will bring these results back in May.

Lack of time was the main reason for not participating in recreation programs. In the focus groups, some said they did not know about them, although some also said they love the community guide magazine they get in the mail. Other

comments were scheduling conflicts, transportation, or not having programs for their age group.

For the people that do come to our programs, 45% said programming was good, and 37% said it was excellent.

54% said the variety and quality of events in parks were good.

Overall, Parks and Recreation had a 46% good rating.

Member Ryan said the ones that do come to programming rated our programs 70% above or more, which is a big win. The next step is how to get more people to come.

Other members suggested having a monthly calendar or newsletter because the quarterly and community guide is so far out, people may possibly forget about events are happening. Looking at expanding the hours of the Community Center.

In the Campus Plan, RDG is recommending roughly 60,000 sq. ft. needed for the Community Center, whereas now the facility is at approximately 26,000 sq. ft.

Member Ryan said it was a positive move to join with other communities, such as Ralston and Papillion, for the youth sport leagues. This gives the kids an opportunity to play against others as they will as they get older.

Member Owen asked if the Mayor's Youth Council could possibly do some recruiting of teens for programs and possibly hosting some. Staff will pass long the suggestion.

Member Gentry asked if the Committee could help with the youth gardening program? Staff will reach out to the Library and send this information to the Committee.

d. Discussion on Park & Recreation Advisory Committee involvement of Arbor Day celebration. **Jason Allen, Parks Superintendent**

- Allen updated the committee on the Arbor Day event. The celebration will be held at Val Verde Park at on April 26 at 1:00 p.m. The tree is planted near the restroom. Pat Lodes will be emcee.
