

**CITY OF LA VISTA
MAYOR AND CITY COUNCIL REPORT
APRIL 18, 2023 AGENDA**

Subject:	Type:	Submitted By:
PUD SITE PLAN AMENDMENT LOTS 1-3 & OUTLOT A SOUTHPORT WEST REPLAT 8	◆ RESOLUTION ORDINANCE RECEIVE/FILE	CHRISTOPHER SOLBERG DEPUTY COMMUNITY DEVELOPMENT DIRECTOR

SYNOPSIS

A public hearing has been scheduled and resolution prepared to approve a PUD Site Plan Amendment to allow a stand-alone fast food restaurant and to add drive through services for a financial institution within the existing Southport Parkway Shops development.

FISCAL IMPACT

N/A.

RECOMMENDATION

Approval, subject to completion of all requirements and conditions specified in the staff report included with this agenda item.

BACKGROUND

A public hearing has been scheduled to consider an application submitted by Summit Development for a PUD Site Plan Amendment to allow for the construction of a stand-alone fast food restaurant and to add drive through services for a financial institution within the existing Southport Parkway Shops development. The development is located on approximately 3.29 acres platted as Lots 1-3 and Outlot A Southport West Replat Eight. The site is located northwest of the intersection of Giles Road and Southport Parkway, south of the Embassy Suites hotel.

The original PUD Site Plan for this property was approved on December 21, 2004, with the latest amendment approved on December 7, 2021. The property lies within the Gateway Corridor Overlay District as well as within the Southport West PUD and is subject to the building design review process. Design review must be completed prior to the issuance of a building permit, along with completion of other specified requirements and conditions.

A detailed staff report is attached.

The Planning Commission held a public hearing on March 16, 2023, and voted unanimously to recommend approval of the PUD Site Plan Amendment for a commercial development contingent on the satisfactory resolution of the issues stated within the staff report prior to City Council approval, as the PUD Site Plan request is consistent with the Comprehensive Plan and the Zoning Ordinance.

RESOLUTION NO. _____

A RESOLUTION OF THE MAYOR AND CITY COUNCIL OF THE CITY OF LA VISTA, NEBRASKA, APPROVING A PLANNED UNIT DEVELOPMENT (PUD) SITE PLAN AMENDMENT FOR LOTS 1-3 AND OUTLOT A SOUTHPORT WEST REPLAT EIGHT, LOCATED IN THE SW 1/4 OF SECTION 18, T14N, R12E OF THE 6TH P.M., SARPY COUNTY, NEBRASKA.

WHEREAS, the owners of the above-described property have applied for approval of a PUD Site Plan Amendment for Lots 1-3 and Outlot A Southport West Replat Eight; and

WHEREAS, the Deputy Community Development Director and the City Engineer have reviewed the PUD Site Plan Amendment; and

WHEREAS, the La Vista Planning Commission held a public hearing on March 16, 2023, and voted unanimously to recommend approval of the PUD Site Plan Amendment; and

WHEREAS, the PUD Site Plan Amendment request is consistent with the Comprehensive Plan and the Zoning Ordinance;

NOW, THEREFORE, BE IT RESOLVED by the Mayor and City Council of the City of La Vista, Nebraska, that the PUD Site Plan Amendment presented at this meeting for Lot 19 Southport West, and Lots 1-3 and Outlot A Southport West Replat Eight, located in the Southwest ¼ of Section 18, T14N, R12E of the 6th P.M., Sarpy County, Nebraska, generally located north of Southport Parkway between Giles Road and S. 125th Street, be, and hereby is, approved, subject to completion of all requirements and conditions specified in the Planning Division Recommendation Report included with this agenda item to the satisfaction of the City Administrator, City Engineer, or her or his designee.

PASSED AND APPROVED THIS 18TH DAY OF APRIL 2023.

CITY OF LA VISTA

ATTEST:

Kim J. Thomas, Acting Mayor

Pamela A. Buethe, MMC
City Clerk

**CITY OF LA VISTA
PLANNING DIVISION
RECOMMENDATION REPORT**

CASE NUMBERS: PPUD23-0001;

FOR HEARING ON: APRIL 18, 2023
REPORT PREPARED ON: MARCH 22, 2023

I. GENERAL INFORMATION

A. APPLICANT:

Southport Parkway, LLC
21008 Cumberland Drive, Ste 106
Elkhorn, NE 68022

B. PROPERTY OWNER:

Southport Parkway, LLC
21008 Cumberland Drive, Ste 106
Elkhorn, NE 68022

C. LOCATION: Northwest of the intersection of Giles Road and Southport Parkway.

D. LEGAL DESCRIPTION: Lots 1-3 and Outlot A of Southport West Replat Eight.

E. REQUESTED ACTION(S): PUD Site Plan amendment to allow for commercial development with shared parking.

F. EXISTING ZONING AND LAND USE: C-3 Highway Commercial/Office Park District, Gateway Corridor District (Overlay District), and Southport West PUD District (Overlay District); a coffee shop is located on Lot 1, with a strip commercial structure under construction on Lot 2.

G. PURPOSE OF REQUEST: Authorize a PUD Site Plan with allowances for setbacks and shared parking to allow for commercial development. Specifically, the development of a fast food establishment on Lot 3 Southport West Replat Eight and the addition of a drive through to the west end of the commercial strip mall on Lot 2 Southport West Replat Eight for use by a financial institution.

H. SIZE OF SITE: Approximately 2.47 acres.

II. BACKGROUND INFORMATION

A. **EXISTING CONDITION OF SITE:** A majority of the existing site is under construction, with a coffee shop opening on Lot 1 and a commercial strip center nearly complete on Lot 2. The property slopes gradually downward to the southeast;

B. **GENERAL NEIGHBORHOOD/AREA LAND USES AND ZONING:**

<u>Direction From Subject Property</u>	<u>Future Land Use Designation</u>	<u>Current Zoning Designation</u>	<u>Surrounding Development</u>
North	Regional Commercial	C-3 PUD Highway Commercial / Office Park District with a Planned Unit Development Overlay (Overlay District) and a Gateway Corridor Overlay (Overlay District);	Embassy Suites
East	Regional Commercial	C-3 PUD Highway Commercial / Office Park District with a Gateway Corridor Overlay (Overlay District);	Pinnacle Bank
South	Regional Commercial	C-3 PUD Highway Commercial / Office Park District with a Planned Unit Development Overlay (Overlay District) and a Gateway Corridor Overlay (Overlay District);	Vacant
West	Regional Commercial	C-3 PUD Highway Commercial / Office Park District with a Planned Unit Development Overlay (Overlay District) and a Gateway Corridor Overlay (Overlay District);	Cabela's

C. **RELEVANT CASE HISTORY:**

1. The PUD Plan and Ordinance for Southport West was originally approved on December 21, 2004.
2. The PUD Ordinance for Southport West was last amended on February 16, 2016.
3. Southport West Replat Seven was approved on December 10, 2019.
4. A PUD Site Plan amendment for the properties involved was approved by City Council on October 15, 2019. Changes to the overall layout and interest of prospective commercial tenants warranted this application to amend the plan.

5. Another PUD Site Plan amendment for the properties involved was approved by City Council on December 7, 2021, resulting in the current configuration of the development.

D. APPLICABLE REGULATIONS:

1. Section 5.12 of the Zoning Regulations – C-3 Highway Commercial / Office Park District.
2. Section 5.15 of the Zoning Regulations – PUD Planned Unit Development District (Overlay District).
3. Section 5.17 of the Zoning Regulations – Gateway Corridor District (Overlay District).

III. ANALYSIS

A. COMPREHENSIVE PLAN:

1. The Future Land Use Map of the Comprehensive Plan designates the area for Regional Commercial uses.

B. OTHER PLANS: N/A.

C. TRAFFIC AND ACCESS:

1. Access to the property will be provided from a right-in/right-out off of Southport Parkway as well as connections through the access drive adjacent to the Embassy Suites parking lot.
2. Applicant has provided an updated traffic impact study in relation to the proposed changes to the development of this project. The study, dated November 2021, finds that traffic is generally anticipated to operate with acceptable delay. However, several turning movements at the intersection of Southport Parkway and Giles Road are anticipated to approach or exceed capacity in short-term future conditions, with or without this project. These are aspects that were included in the previous traffic impact study at the time of the existing PUD approval in December 2021.
3. Applicant should install all access and signage improvements as recommended in the Traffic Impact Study.

D. UTILITIES:

1. The property has access to sanitary sewer, water, gas, power, and communication utilities.

E. PARKING REQUIREMENTS:

1. The PUD ordinance for Southport West requires a ratio of 4.5 stalls per 1,000 square feet of leasable gross floor area. The gross floor area proposed within the development requires 103 stalls. The parking count depicted within the PUD Site Plan set is 140 stalls, exceeding the minimum requirement by 37 stalls.

F. LANDSCAPING:

1. The landscaping for any developments on this site will need to comply with the requirements of the Zoning Ordinance and of the Southport West Design Guidelines. The design review process for the PUD Site Plan map set needs to be completed prior to the issuance of a building permit.

IV. REVIEW COMMENTS:

- A. The design of the buildings and the overall site will be reviewed through the City's Architectural Design Review process, and must be substantially complete prior issuance of any building permits.
- B. All primary structures in the PUD Site Plan are depicted to meet the setbacks of the underlying C-3 Highway Commercial / Office Park Zoning District. However, due to site constraints, the dumpster enclosure in the northwest corner of Lot 2 lies closer to the side lot line (8.24') than the 15-foot setback allowed within the C-3 District.
- C. Applicant has been made aware that developments on this property will require FAA approval prior to the issuance of a building permit due to proximity of the Millard Airport.
- D. The development will be required to meet the requirements for a Post Construction Storm Water Management Plan as per City regulations.

V. STAFF RECOMMENDATION – PLANNED UNIT DEVELOPMENT SITE PLAN AMENDMENT:

Approval of the PUD Site Plan for a commercial development on Lots 1-3 and Outlot A Southport West Replat 8, as the PUD Site Plan request is consistent with the Comprehensive Plan and the Zoning Ordinance.

VI. PLANNING COMMISSION RECOMMENDATION – PLANNED UNIT DEVELOPMENT SITE PLAN AMENDMENT:

The Planning Commission met on March 16, 2023 and voted unanimously to recommend approval of the PUD Site Plan for a commercial development on Lots 1-3 and Outlot A Southport West Replat 8 as the PUD Site Plan request is consistent with the Comprehensive Plan and the Zoning Ordinance.

VII. ATTACHMENTS TO REPORT:

- A. Vicinity Map
- B. Review Letters
- C. Draft PUD Site Plan map set
- D. Preliminary Building Elevations
- E. Updated Traffic Impact Study

VIII. COPIES OF REPORT SENT TO:

- A. Jeff Lake, Summit Development
- B. Kyle Hasse, E & A Consulting
- C. Kyle Vohl, E & A Consulting
- D. Public Upon Request

RE: Planned Unit Development Amendment – Initial Review Letter
Lots 1, 2, 3, and Outlot A Southport West Replat 8

Mr. Vohl,

We have reviewed the documents submitted for the above-referenced application. Based on the elements for consideration set forth in the applicable sections of the Zoning Ordinance, the City has the following comments:

General Comments

1. Please submit an updated schedule of construction, per the requirements of Section 5.15.04.01.
2. In relation to Section 5.15.04.03, please submit all applicable easements and covenants with neighboring property owners, if not done so already.
3. Per Section 5.15.04.06, we need you to provide evidence of meeting and coordination with the adjacent hotel property owner.
4. Developer will need to obtain approval by the FAA for this development prior to issuance of building permits due to the proximity of this development to the Millard Airport.

City Hall
8116 Park View Blvd.
La Vista, NE 68128-2198
402.331.4343 P

402.331.1051 F

Recreation
8116 Park View Blvd.
402.331.3455 P
402.331.0299 F

5. As per Section 5.15.04.05, the application to amend the PUD needs to be signed by at least 51% of the initial PUD property owners. Provision of signed letters of support would be acceptable.
6. In relation to Section 5.15.05.04, the proposed number and location of storm inlets appear to be inadequate. Please provide further detail on how the parking lot will drain, and whether the Lot 3 drainage will be tied to the existing site drainage infrastructure.

Please show the point of connection and other pertinent design information for the sanitary sewer.

Please show the point of connection and other pertinent design information to the public stormwater infrastructure. If the project is connecting into the existing PCSMP, please provide documentation/calculations supporting this.

A post construction stormwater management plan, and/or modification of the existing plan, inclusive of a drainage study will be required at the time of building permit application.

Please confirm if the existing NPDES grading permit is to be modified, or if the lot disturbance in and of itself is anticipated to be greater than 1 acre in size.

7. As per Section 5.15.05.02 (5), widths of existing right-of-ways need to be displayed.
8. Per Section 5.15.05.05 a legal description needs to be provided on the PUD Site Plan. One is provided but it needs to read; "Southport West Replat Eight, Lots 1, 2, 3, & Outlot A."
9. As per Section 5.15.05.06 a vicinity map needs to be included in the PUD Site Plan that meets the requirements of the aforementioned section of the Zoning Ordinance.
10. The design for the proposed fast casual restaurant building with the drive-through must be approved through the City's design review process, prior to application for building permits.

Traffic and Access

1. Per Section 5.15.04.04, please confirm the finding of the traffic impact study in regards to the amended PUD, to ensure that it remains consistent with the traffic impact study of the previously approved PUD for Lots 1, 2, and 3.

2. Per Section 5.15.04.16, please show how internal pedestrian circulation is made between Lot 2 and Lot 3.

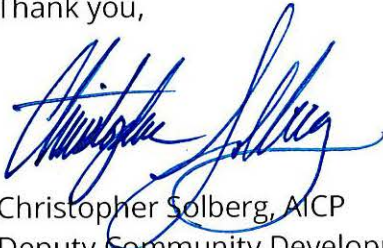

Landscaping Sheet

1. The original PUD plan set calls for berming along Southport Parkway and Westport Parkway. However, that berming has not been carried over to the current PUD plan set. Please return the required berming back to the landscaping and grading plans to a height of 2-1/2 feet above the curb line as per Section 8(B)(i)(c) of the Southport West PUD Ordinance.
2. The landscaping plan is currently under review by the City's Design Review Architect. A separate design review letter will be forwarded once the initial review has been completed.

Please submit 2 full size revised copies of the PUD plans and related documents (along with electronic copies) to the City for further review. A timeline for review by the Planning Commission and City Council will be determined based on the timing of the resubmittal and the extent to which the issues noted this review have been sufficiently addressed.

If you have any questions regarding these comments, please feel free to contact me at any time.

Thank you,

RE: Southport West –PUD Amendment Re-Submittal
E&A File: P2000.030.167

Mr. Solberg,

On behalf of our client, Southport Parkway, LLC., we hereby re-submit an application for the above referenced project. The subject property is located South of Interstate 80 and Giles Road. Based on the initial review letter dated February 14, 2023, we have some conditions of approval to address. Each of your comments are listed, with our response following it shown in italics.

General Comments:

1. Please Submit an updated schedule of construction. *Response: Lot 2 canopy construction: June 1, 2023 thru August 1, 2023. Lot 3 Construction: Estimated August 1, 2023 thru March 1, 2024.*
2. Please Submit all applicable easements and covenants with neighboring property owners. *Response: Mr. Lake has submitted easements and covenants to City of La Vista.*
3. Provide evidence of meeting and coordination with adjacent hotel property owner. *Response: Mr. Lake has provided documentation to City of La Vista.*
4. Developer will need to obtain approval by the FAA for this development prior to issuance of building permits due to the proximity of this development to the Millard Airport. *Response: Understood. The approval will be provided at time of building permit.*
5. The application to amend the PUD needs to be signed by at least 51% of the initial PUD property owners. *Response: Mr. Lake has provided the signed letters to City of La Vista.*
6. Provide information on number and location of storm inlets and further detail on how the parking lot will drain and whether Lot 3 will be tied to the existing site drainage infrastructure. *Response: The current Civil Design Utility Plan is provided in this re-submittal with future connection shown in red. Sanitary & storm connections will be detailed and shown on Civil Permit plan set.*

Show point of connection and other pertinent design information for the sanitary sewer.

Response: The current Civil Design Utility Plan is provided in this re-submittal with future connection shown in red. Sanitary & storm connections will be detailed and shown on Civil Permit plan set.

Show point of connection and other pertinent design information to the public stormwater infrastructure. Please provide documentation/calculations if the project is connecting into the existing PCSMP.

Response: The current Civil Design Utility Plan is provided in this re-submittal with future connection shown in red. Sanitary & storm connections will be detailed and shown on Civil Permit plan set. Calculations will be supplied at time of building permit.

A PCSMP and/or modification of the existing plan, inclusive of the drainage study will be required at the time of building permit. *Response: Understood. This will be provided at the time of building permit.*

Please confirm if the existing NPDES grading permit is to be modified, or if the lot disturbance in and of itself is anticipated to be greater than 1 acre in size.

Response: Client has an existing permit on all 3 lots. Lot 3 itself is under 1 acre.

7. Widths of existing right-of-ways need to be displayed.

Response: These dimensions have been added to the PUD Site Plan.

8. Legal description needs to read; "Southport West Replat Eight, Lots 1, 2, 3 & Outlot A."

Response: The description has been added to the PUD Site Plan.

9. Vicinity map needs to be included in the PUD Site Plan.

Response: The map has been added to the PUD Site Plan.

10. The design for proposed fast casual restaurant building with the drive-through must be approved through the City's design review process prior to application for building permits.

Response: Understood. This will be done prior to building permit.

Traffic and Access:

1. Please confirm the finding of the TIS in regards to the amended PUD, to ensure that it remains consistent with the TIS of the previously approved PUD for Lots 1, 2 & 3.

Response: E&A has reviewed the original traffic study dated 8-28-19 and traffic impact study update dated 9-2-21, both by Olsson. The methodology and sources of data are consistent and common engineering practices. The assumed Trip Generation in the studies and actual now constructed use on Lot 3 is the same. The Fast Food with Drive Thru Window use contemplated in the study update to be on Lot 2 is now located on Lot 3. The High Turnover Sit Down Restaurant use contemplated in the study update to be on Lot 3 is now an end cap Bank which would generate fewer daily trips and AM/PM Peak hour trips. E&A believes the proposed site plan is a reduction in trips from the traffic impact study update and therefore is conservatively acceptable for the proposed uses. The TIS information is included in this submittal.

2. Please show how an internal pedestrian circulation is made between Lot 3 and 3.

Response: The internal connection has been added to the PUD Site Plan.

Landscaping Sheet:

1. The original PUD plan set calls for berming along Southport Parkway and Westport Parkway. Please return the required berming into the Landscape & Grading Plans to a height of 2 1/2 feet above the curb line.

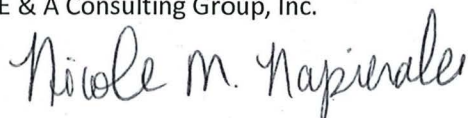

Response: The berming & landscaping has been added to the Landscape Plan & Grading Plan.

2. The Landscape Plan is currently under review by the City's Design Review Architect. A separate design review letter will be forwarded once the initial review has been completed. *Response: Understood.*

All documents included are listed on the attached transmittal. If you have any questions regarding this application, please contact me at 402-895-4700 or by email at nnapierala@eacg.com.

Sincerely,

E & A Consulting Group, Inc.

RE: Planned Unit Development Amendment – Second Review Letter
Lots 1, 2, 3, and Outlot A Southport West Replat 8

Mr. Vohl,

We have reviewed the documents provided as part of the second submission for the above-referenced application. Based on the elements for consideration set forth in the applicable sections of the Zoning Ordinance, the City has the following comments:

General Comments

1. As per Section 5.15.05.06 a vicinity map needs to be included in the PUD Site Plan that meets the requirements of the aforementioned section of the Zoning Ordinance. Although a vicinity map has been provided on the latest submittal, the location it depicts is wrong.

Traffic and Access

1. Please clarify the statement “E&A believes the proposed site plan is a reduction in from the traffic impact study update” by showing the changes in trip generation table, Table 1 of the 9/2/21 Traffic Impact Study update, to include the AM Peak and PM Peak trips generated.

Please submit 2 full size revised copies of the PUD plans and related documents (along with electronic copies) to the City for preparation of Planning Commission packets. This application is currently on the agenda for the March 16th Planning Commission meeting. However, to remain on the agenda, revisions discussed in this letter need to be made in a manner acceptable to City staff and provided as outlined above by noon, Monday, March 6th.

If you have any questions regarding these comments, please feel free to contact me at any time.

Thank you,

RE: Southport West –PUD Amendment Re-Submittal
E&A File: P2000.030.167

Mr. Solberg,

On behalf of our client, Southport Parkway, LLC., we hereby re-submit an application for the above referenced project. The subject property is located South of Interstate 80 and Giles Road. Based on the initial review letter dated February 28, 2023 provided by Dan Kerns with Schemmer Associates, and a review letter provided by yourself on March 1st we have some conditions of approval to address. Each of comments are listed, with our response following it shown in italics.

Comments from Dan Kerns:

General Comments:

1. The following drawings were submitted:
 - a. Site Plan
 - b. Emergency Vehicle Plan
 - c. Landscape Plan
 - d. Grading & PCSMP Plan

Response: Noted.
2. Additional reviews regarding landscaping will take place at the time of Design Review Submission for each building within this PUD with regard to specific requirements regarding the softening of areas around dumpster enclosures, screening of utilities, screening of mechanical equipment, etc.
Response: Noted.

Drawing Comments:

1. Landscaping
 - i. Plants with type marks B, C & E on the planting schedule are not included in the approved plant list in appendix C.
Response: This revision has been completed.
 - ii. Deciduous shade trees are required to have a 3" caliper. Trees proposed in Planting Schedule is shown as a 2" caliper, revise as required.
Response: This revision has been completed.

- iii. Deciduous shrubs are required to be 5 gallons. Shrubs proposed in Plant Schedule is shown as a 3 gallon, revise as required.

Response: This revision has been completed.

- iv. 6.I.C requires a' bermed, landscaped, sodded and irrigated green space along secondary (Southport Parkway & Westport Parkway) street frontages. The grading plan does not indicate any bermming along these frontages.

Response: This revision has been completed.

Comments from Chris Solberg:

General Comments:

1. As per Section 5.15.5.06 a vicinity maps needs to be included in the PUD Site Plan that meets the requirements of the aforementioned section of the Zoning Ordinance. Although a vicinity map has been provided on the latest submittal, the location it depicts is wrong.

Response: The Vicinity Map has been revised as noted.

Traffic and Access:

1. Please clarify the statement "E&A believes the proposed site plan is a reduction in trips from the traffic impact study update" by showing the changes in the trip generation table, Table 1 of the 9/2/21 Traffic Impact Study update, to include the Am Peak and PM Peak trips generated.

Response: Below is the comparison of the Trip Generation Tables.

Table 1 Extracted from Olsson 9-2-2021 Traffic Study Update (ITE 10th Edition)

Lot No.	ITE Code	Land Use			Daily	AM Peak Hour			PM Peak Hour		
		Description	Size	Units		Total	Enter	Exit	Total	Enter	Exit

TREE NOTES:

- Landscape contractor must coordinate with all utilities and general contractor to field verify all utility locations that may conflict with all proposed tree planting locations on the project site.

LEGEND:

 - Areas to be installed with sod & irrigation OR seed & matting. See this sheet for details.

LANDSCAPE NOTES:

- Locate and verify the location of all underground utilities prior to the start of any construction. Care should be taken not to disturb any existing utilities during construction. Any damage to utilities or other improvements caused by the Contractor will be repaired at no cost to the Owner.
- All plant material shall be of good quality and sizes shall meet required size specifications.
- All plants are to be watered in immediately after planting and then watered once a week for a period of two months from time of planting.
- All plant material shall be guaranteed to be in a live and healthy growing condition for two full growing seasons (trees) and one full growing season (perennials & shrubs) after final project acceptance or shall be replaced free of charge with the same grade and species including labor.
- Verify all dimensions and conditions prior to starting construction. The location of plant material is critical and shall be installed as indicated on plans. Field adjustments may be necessary based on field conditions (i.e., root ball and drop inlet conflict). All adjustments must be approved by the landscape architect.
- The Landscape Contractor shall remove all construction debris and materials injurious to plant growth from planting pits and beds prior to backfilling with planting mix. All planting areas shall be free of weeds and debris prior to any work.
- Provide locally available shredded hardwood mulch on all trees and in all planting beds to a 3 inch minimum depth unless otherwise noted. Mulch ring to extend 1'-0" minimum beyond planting pit. Minor site grading to be included if needed.
- All trees are to be staked for a period of not less than one year from time of planting.
- Contractor to coordinate work with other amenities contractors.

IRRIGATION NOTES:

- Irrigation bid to include meter pit and city utility fees.
- Irrigate all sodded areas.
- Irrigation controller to be mounted in a steel utility box with hasp for pad lock.
- Irrigation system to be guaranteed for 1 year. Written guarantee to be supplied prior to final payment.
- Irrigation contractor responsible to winterize system one time.
- Irrigation contractor to furnish as built drawing of the system and catalogue cuts of the installed equipment prior to final payment.
- Irrigation contractor to provide owner and engineer an irrigation plan shop drawing and equipment catalog cuts for approval prior to installation.
- Contractor to coordinate work with other amenities contractors.

SEEDING NOTES:

- Seeding shall be Superturf II no ryegrass (sod grower) lateral spread tall fescue kentucky bluegrass mixture from United Seeds, Inc. Planting method and seeding rate shall be 10 lbs per 1,000 sq ft. Seeding dates: March-June, dormant seeding: December-March.
- Matting shall be installed over all seeding areas (S75 - NAG Single Net Straw Matting OR EQUIVALENT).
- Contractor to coordinate work with other amenities contractors.

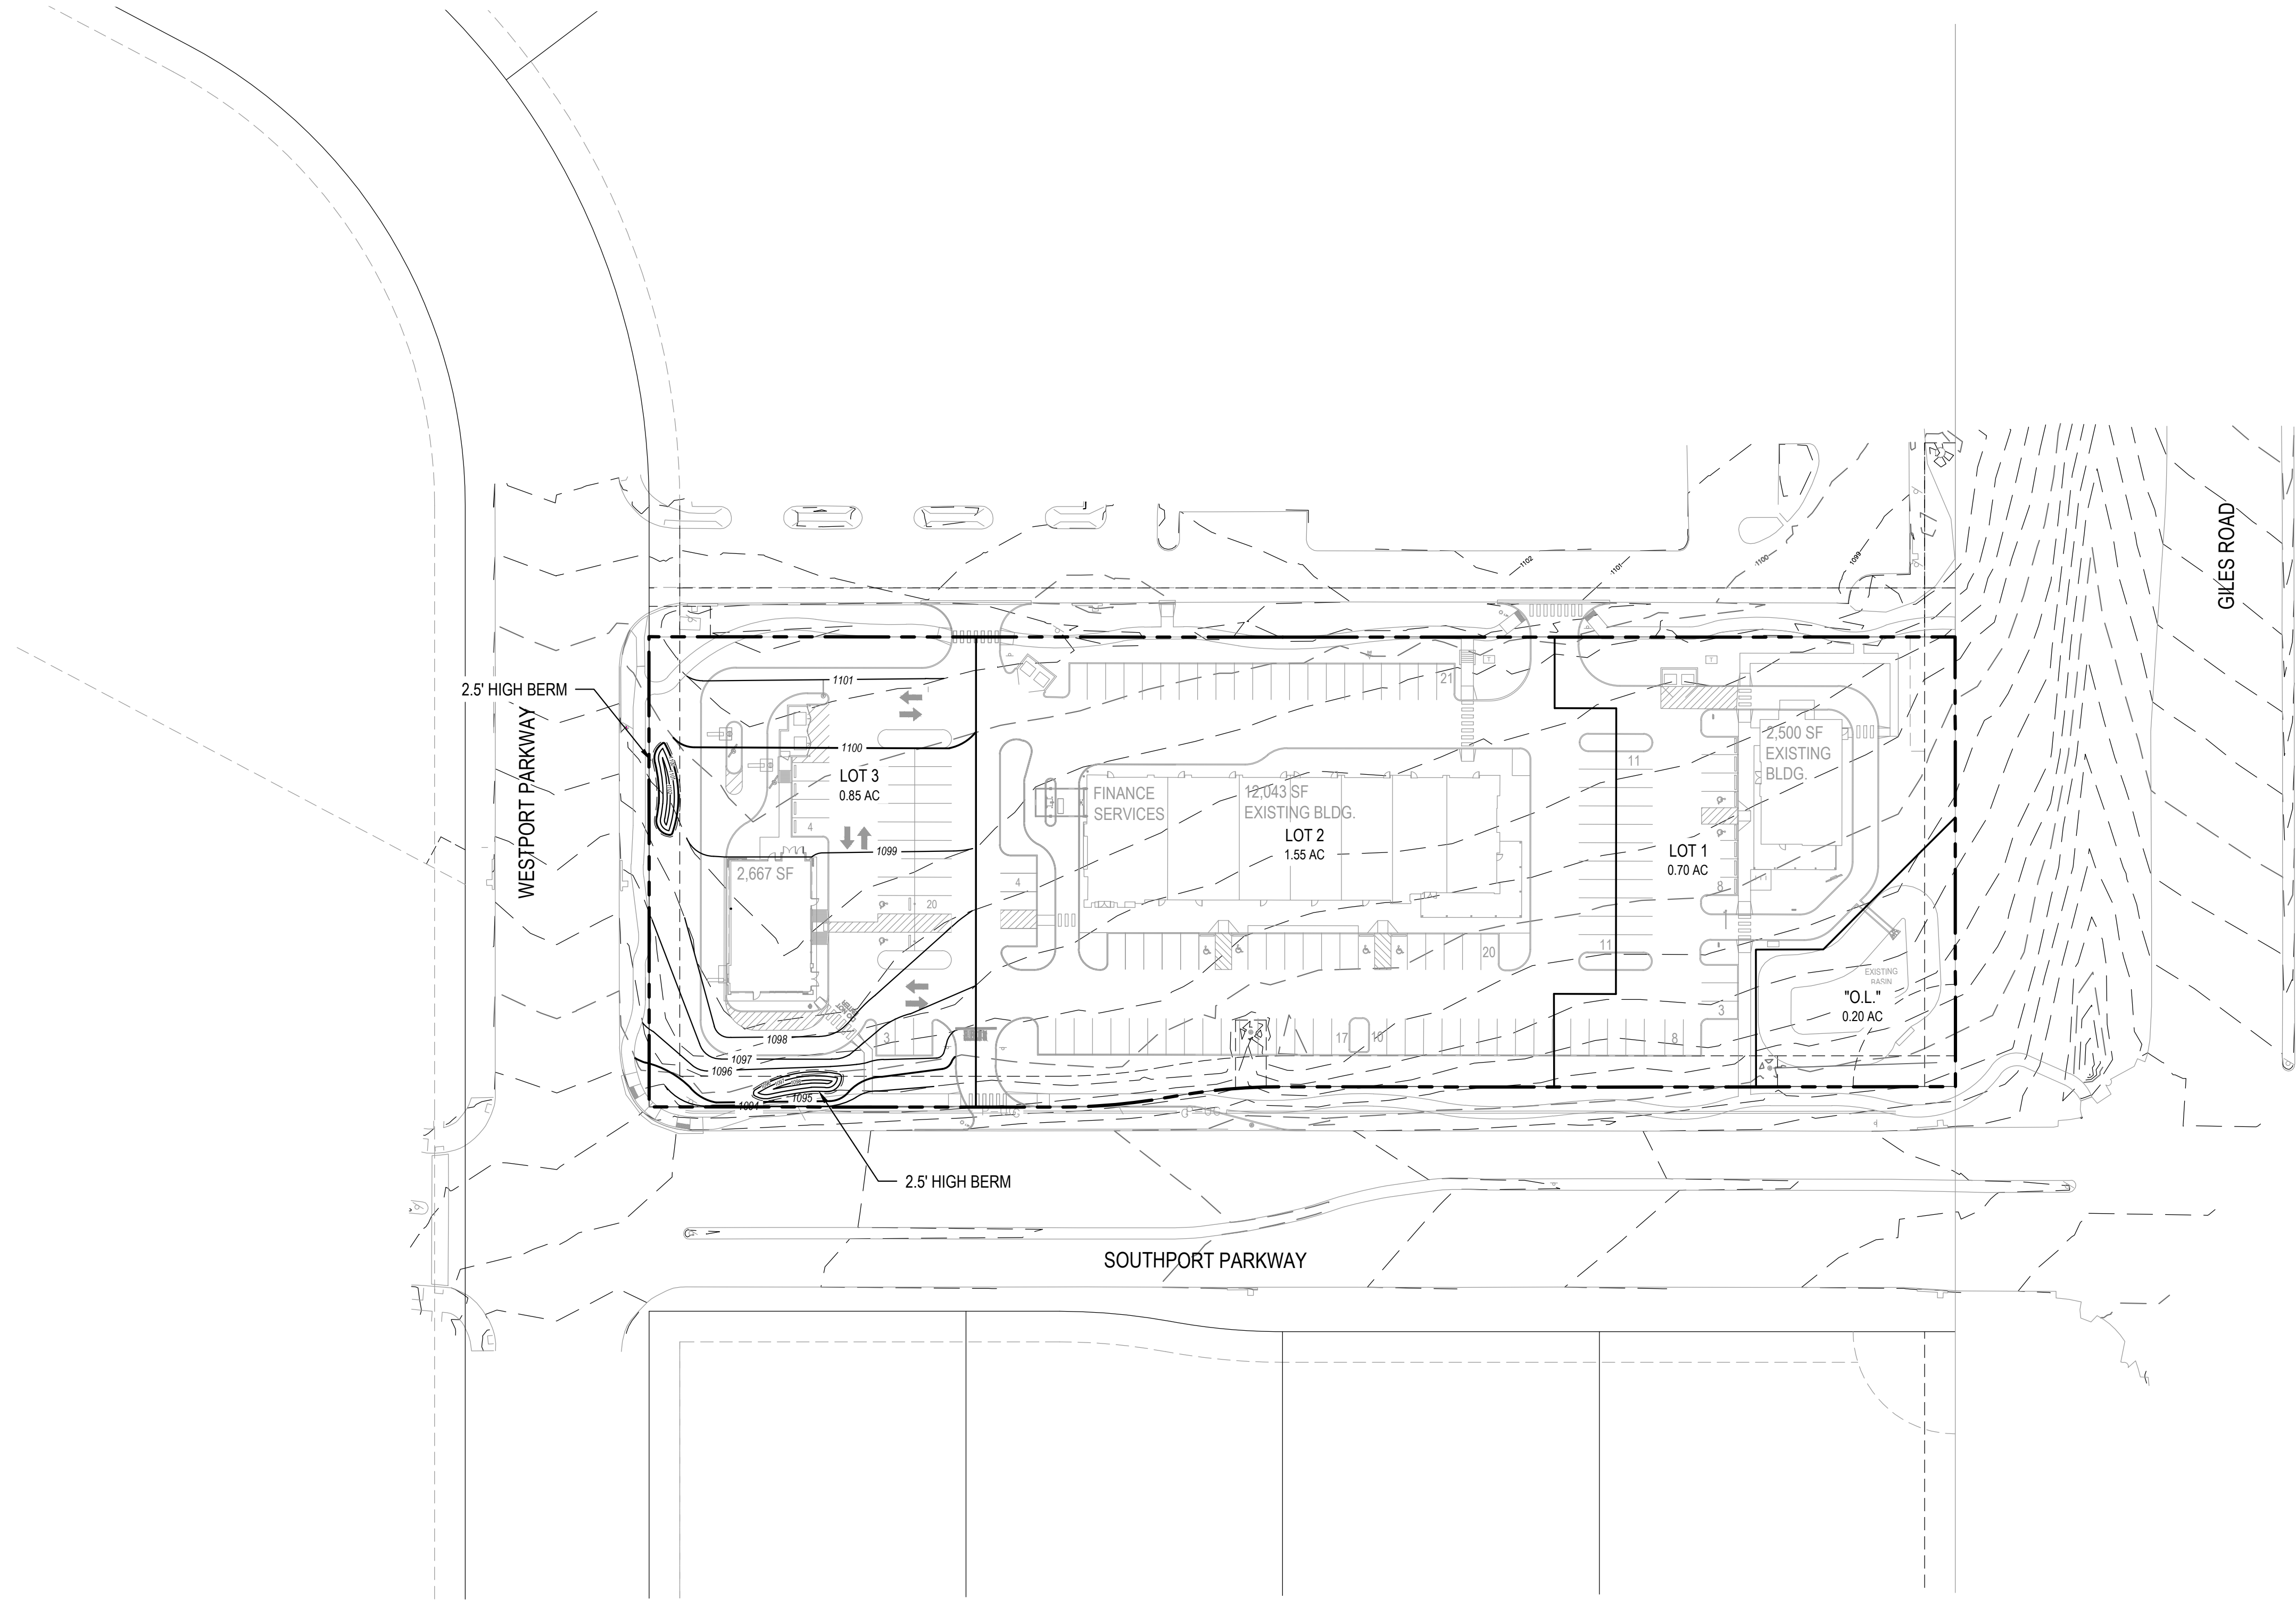

SODDING NOTES:

- The contractor shall notify the architect at least forty-eight hours in advance of the time he intends to begin sodding and shall not proceed with such work until permission to do so have been granted. No frozen sod shall be placed. No sodding shall be done on frozen earth.
- Care shall be exercised at all times to retain the native soil on the roots of the sod during the process of transplanting. Dumping from vehicles will not be permitted. The sod shall be planted within eighteen (18) hours from the time it is harvested unless it is tightly rolled or stored roots-to-roots in a satisfactory manner. All sod in stacks shall be kept moist and shall be protected from exposure to the sun and from freezing. No storage longer than three (3) days will be permitted. Sod which becomes dried out or does not meet the specifications will be rejected.
- There shall be a minimum of six inches, after tamping, of topsoil under all sod. Excavations or trenching shall be made to a sufficient depth below the finished grade of the sod to accommodate the depth of topsoil as specified and the thickness of sod as specified. Fertilizer shall be applied at a rate to provide 100 pounds of nitrogen per acre unless fertilizer has been applied under another item in this contract to the topsoil in the sod bed. Fertilizer applied under this item shall be incorporated with the topsoil to a depth of at least two inches before the sod is laid, unless otherwise specified or approved. Incorporation shall be accomplished by disking, harrowing, drilling, raking or other approved means.
- The soil on which the sod is laid shall be reasonably moist and shall be watered, if so directed. The sod shall be laid smoothly, edge to edge, and all openings shall be plugged with sod. Immediately after the sod is laid, it shall be pressed firmly into contact with the sod bed by tamping, rolling, or by other approved methods so as to eliminate all air pockets, provide true and even surfaces, insure knitting and protect all exposed sod edges but without displacement of the sod or deformation of the surface of the sodded areas and watered at the rate of five gallons per square yard of sodded area unless otherwise directed.
- The contractor shall take care of the sodded areas until all work on the entire contract has been completed, and sod has been mowed twice and then accepted. Such care shall consist of providing protection against traffic by approved warning signs or barricades and the mowing of grass to the height of two inches when the growth attains a maximum height of four inches.
- Sod shall also be watered. When the sod is watered, sufficient water shall be applied to wet the sod at least two inches deep in the sod bed. Watering shall be done in a manner which will not cause erosion or other damage to the finished surfaces. Any surfaces which become gullied or otherwise damaged shall be repaired to reestablish the grade and conditions of the soil prior to sodding and shall then be re-fertilized and re-sodded as specified under this item.
- In drainage-ways or slopes, the sod shall be laid with their longest dimensions parallel to the contours. Such sodding shall begin at the base of slopes or grades and the sodding progress in continuous parallel rows working upward. Vertical joints between such sodding shall be staggered. All sod shall be laid to the grades specified and the grades formed with special care at the junction of drainage-ways.
- Sod shall be held in place by stakes in all drainage-ways, on all slopes steeper than 4:1 and elsewhere where specified or as directed. Pegging shall be done immediately after tamping. At least one stake shall be driven through each sod to be staked, and the stakes shall not be more than two feet apart. Stakes shall have their flat sides against the slope and be driven flush. Stakes for pegging sod shall be of wood, approximately one inch by two inches and of sufficient length to penetrate the sod, the topsoil and to a minimum depth of two inches of subsoil.
- The contractor shall keep all sodded areas thoroughly watered for a period of thirty (30) calendar days after the initial laying and as often as required thereafter until sod has been fully established (two mowings) and accepted by the engineer and owner. Contractor to use temporary irrigation for the watering of the sod. Contractor to supply all necessary hoses, fittings and sprinklers for all watering needs.
- All sod must be fully established (two mowings) and growing at the time of inspection and acceptance.

Technical Memorandum

Date: September 2, 2021
To: Pat Dowse, PE
From: Dan Bellizzi, PE, PTOE
RE: Southport North Lots – Traffic Study Update
Project #: 021-02442

INTRODUCTION and OBJECTIVE

This memorandum documents the traffic impacts of a site plan update located in the northeast quadrant of Southport Parkway and Westport Parkway in La Vista, Nebraska. This memorandum is intended to provide an update to the analysis of the roadway network based on the updated site plan for this property. The proposed site plan is shown in **Figure 1**. All figures are included at the end of the memorandum.

A previous traffic study was completed by Olsson in August 2019 (Olsson 2019) for the proposed area of development (previously Brixmor North development). This memorandum will utilize traffic volumes and recommendations from the Olsson 2019 study as a baseline. The Olsson 2019 study is included in the **Appendix** at the end of this memorandum. An analysis of the updated 2022 plus site conditions in the morning peak hour (AM) and evening peak hour (PM) was completed in this memorandum. In addition, site traffic circulation was examined for the proposed site layout to determine the viability of the proposed site, including proposed access points. Specific recommendations are included at the end of the report to help mitigate traffic impacts.

UPDATED ANALYSIS

The trip generation and opening day capacity analysis were reevaluated based on the updated site plan provided by the client. The number of anticipated site trips and results of the capacity analysis using new site trips were compared to the evaluations performed in the Olsson 2019 study. In addition, the intersection of Westport Parkway and Embassy Suites Drive was added to the evaluation per discussions with the City of La Vista.

Trip Generation and Distribution

Trip generation is generally determined using rates found in the Institute of Transportation Engineers (ITE) *Trip Generation Manual (10th Edition)*. Common Land Use Codes (LUC) are published with rates that can be applied to values related to the size of the proposed site to estimate the anticipated entering and exiting trips.

Based on the updated site plan, the same land uses – with revised building footprints – that were evaluated in the Olsson 2019 study are expected to be developed. Proposed site trips were determined based on ITE trip generation rates used in the Olsson 2019 study. The updated trip generation is shown in **Table 1**. The updated site plan is anticipated to have a decrease of 437 daily (10 percent), 25 AM peak hour (6 percent), and 27 PM peak hour (9 percent) site trips compared to the trip generation in the Olsson 2019 study.

Table 1. Updated trip generation for Southport North Lots

Daily Trip Generation

					275			144	131		39	39	105	92

Based on conversations with the City of La Vista, the intersection of Westport Parkway and Embassy Suites Drive was included in the intersection analysis. To populate traffic volumes at this drive, hotel traffic volumes were generated based on information in a Southport Development traffic study completed by Schemmer Associates that was provided by the City of La Vista (Schemmer 2006). The Schemmer 2006 study does not provide AM peak hour trips for this use. A separate trip generation was performed for the hotel use and site trips were applied to the turning movements at Embassy Suites Drive. Through volumes along Westport Parkway were balanced. **Table 2** shows the trips for the hotel land use. Note that a 15% mixed-use reduction was used to match the trip generation from the Schemmer 2006 study.

Table 2. Hotel Land Use Trip Generation

Daily Trip Generation											
ITE 10th Ed Code/Page	Land Use	Size		Trip Gen. Avg. Rate/Eq.	Daily Trips	Mixed-Use Reduction	Net Daily Trips	Trip Distribution		Total Daily Trips	
								Enter	Exit	Enter	Exit
310 / 2	Hotel	470	Rooms	8.36	3,929	15%	3,340	50%	50%	1,670	1,670
Total					3,929		3,340			1,670	1,670

AM Peak Hour Trips											
ITE 10th Ed Code/Page	Land Use	Size		Trip Gen. Avg. Rate/Eq.	AM Peak Trips	Mixed-Use Reduction	Net AM Peak Trips	Trip Distribution		Total AM Trips	
								Enter	Exit	Enter	Exit
310 / 3	Hotel	470	Rooms	0.47	221	15%	188	59%	41%	111	77
Total					221		188			111	77

PM Peak Hour Trips											
ITE 10th Ed Code/Page	Land Use	Size		Trip Gen. Avg. Rate/Eq.	PM Peak Trips	Mixed-Use Reduction	Net PM Peak Trips	Trip Distribution		Total PM Trips	
								Enter	Exit	Enter	Exit
310 / 4	Hotel	470	Rooms	0.60	282	15%	240	51%	49%	122	117
					282		240			122	117

The primary and pass-by trip distributions used in the Olsson 2019 study are shown in **Figure 2** and **Figure 3**, respectively. The updated primary, pass-by, and combined trips are shown in **Figure 4-6**. The updated site trips were applied to 2022 background volumes using the trip distribution from the Olsson 2019 study to develop the 2022 plus site volume scenario. It should be noted that there are no westbound u-turning movements at the intersection of Westport Parkway and Southport Parkway due to an existing northbound overlap phase with the westbound left-turning movement. In the Olsson 2019 study, the installation of a “No U-Turn” sign (MUTCD R3-4) at the intersection of Westport Parkway and Southport Parkway to restrict westbound u-turning movements is recommended. This study maintains this recommendation. The updated 2022 plus site traffic volumes are shown in **Figure 7**.

2022 Plus Site Capacity Analysis

Capacity analyses were performed at the study intersections in 2022 plus Site conditions. Analyses were conducted using Synchro, Version 11.0 which is based on the Highway Capacity Manual (HCM), 6th Edition delay methodologies. For simplicity, the amount of control delay is equated to a grade or Level of Service (LOS) based on thresholds of driver acceptance. The amount of delay is assigned a letter grade A through F, LOS A representing little or no delay and LOS F representing very high delay. **Table 3** shows the delays associated with each LOS grade for signalized and unsignalized intersections.

Table 3. Intersection LOS Criteria

Level-of-Service	Average Control Delay (seconds)	
	Signalized	Unsignalized
A	≤ 10	≤ 10
B	> 10-20	> 10-15
C	> 20-35	> 15-25
D	> 35-55	> 25-35
E	> 55-80	> 35-50
F	> 80	> 50
Highway Capacity Manual (HCM, 6 th Edition)		

Results of the capacity analysis indicate all turning movements are anticipated to operate at similar levels of service reported in the Olsson 2019 study. In addition, individual turning movements at the Embassy Suites Drive intersection are anticipated to operate at LOS B or better in both peak hours. The 95th percentile queue lengths for individual turning movements at study intersections are anticipated to be contained within existing turn bay lengths.

The 2022 plus Site capacity analysis summary is illustrated in **Figure 8**. Detailed results can be found in the **Appendix**.

Site Access and Circulation

Site access and circulation of site traffic was re-analyzed to determine potential impacts on the roadway network.

Proposed Site Access

The proposed site drive along Southport Parkway aligns with the east drive aisle in the site and is located approximately 300 feet west of the Giles Road west curb line. Consistent with guidance from the City of La Vista and the Olsson 2019 study, a westbound right-turn lane at the drive location was considered for analysis purposes.

Based on the proposed location of the site drive along Southport Parkway, there are concerns that traffic may use this drive for access to the adjacent hotel property. In addition, there are concerns delivery trucks using this access may need to wait for exiting vehicles to have adequate space to make a wide turn into the site, potentially stacking vehicles onto Southport Parkway. Consistent with the Olsson 2019 study, signage should be provided directing hotel traffic and delivery trucks to use the access along Westport Parkway.

Alternative Site Access

To increase on site storage for the proposed coffee shop, an alternative access location was considered. Access could be designed to align with the site's west drive aisle (approximately 175 feet east of the Westport Parkway east curb line). At this location, the access would be located within the existing storage lanes for the dual westbound left-turn lanes on Southport Parkway. Vehicles exiting the site would have to cross multiple westbound lanes to access the westbound left-turn lanes at the intersection of Westport Parkway and Southport Parkway. However, restricting the access to right-in only at this location would alleviate concerns of exiting vehicles conflicting with Southport Parkway traffic. Do Not Enter (MUTCD sign R5-1) signs would be recommended to be installed at the throat of this drive.

An access at this location would be within the functional area of the intersection of Westport Parkway and Southport Parkway. The functional area represents the influence of storage and vehicular queuing at an intersection. With a site drive at this location, a westbound right-turn lane would be recommended to reduce conflicts with through movements along Southport Parkway because of the short spacing to the Westport Parkway intersection.

On-site Circulation

The updated site plan proposes two land uses that include drive-throughs. The available stacking for the proposed coffee shop on the east side of the property within the dedicated drive through lane is 12 vehicles. Storage for an additional 6 vehicles is provided within the parking lot drive aisles for a total of 18 vehicles before entering the public right-of-way. Additional storage is available for queued vehicles in the drive aisle adjacent to the west side of the building.

If the site access from Southport Parkway were to be moved to align with the west drive aisle, there would be enough on-site stacking for approximately 30 vehicles. However, entering coffee shop traffic will flow through the Lot 2 parking lot drive aisle to get to the drive through lane, introducing additional on-site conflicts.

The available stacking for the fast-food restaurant (center building) shown in the site plan is eight vehicles in a dedicated storage lane. The 24-foot drive aisle on the north side of the building should be one-way westbound to avoid conflicts with circulation and drive-through access. Do Not Enter (MUTCD sign R5-1) signs and pavement marking arrow symbols should be installed to guide site traffic. **Figure 9** shows a concept of these signage and pavement marking improvements.

SUMMARY

This study documents the comparison of site-generated traffic and capacity analysis for the updated land uses for the development located on the northeast quadrant of Southport Parkway and Westport Parkway in La Vista, Nebraska. In addition, site circulation was explored to determine impacts on the roadway network.

Based on the updated site plan, there is anticipated to be a 5 to 10 percent decrease in daily and peak hour site trips compared to the trips analyzed in the Olsson 2019 traffic study. The effects of the difference in site-generated trips are anticipated to be minimal at study intersections, with minor decreases in delay and queuing compared to those reported in the Olsson 2019 study.

Based on the current site plan, the drive aisle on the north side of the central building should be one-way westbound to avoid conflicts with circulation and drive-through access. Do Not Enter (MUTCD sign R5-1) signs and arrow pavement markings should be installed to guide site traffic.

In addition, this study maintains the recommendations in the Olsson 2019 study, including:

- As traffic volumes increase along Giles Road and developments in the area build out, signal timings in the area should be considered for modification to improve traffic operations through the Giles Road corridor. There are no recommended signal timing modifications at study intersections currently.
- Providing a "One Way" sign (MUTCD R6-1) in the median along Southport Parkway with the construction of the Southport Parkway site drive.
- Install "No U-Turn" sign (MUTCD R3-4) on west leg median at intersection of Westport Parkway and Southport Parkway.
- Install westbound right-turn lane at the location of the proposed site drive on Southport Parkway.
- Install signage prior to the site drive directing hotel and delivery traffic to use Westport Parkway to reduce potential congestion at the Southport Parkway site drive.

MEETING MINUTES
CITY OF LA VISTA PLANNING COMMISSION
8116 PARK VIEW BOULEVARD, LA VISTA, NE 68128
P: (402) 593-6400

THURSDAY, MARCH 16, AT 6:30 P.M.

The City of La Vista Planning Commission held a meeting on Thursday, March 16, 2023, in the Harold “Andy” Anderson Council Chambers at La Vista City Hall, 8116 Park View Boulevard. Legal notice of the public meeting and hearing were posted, distributed, and published according to Nebraska law. Notice was simultaneously given to all members of the Planning Commission. All proceedings shown were taken while the convened meeting was open to the attendance of the public. The following Planning Commission members were present and absent:

PRESENT: Gayle Malmquist, Patrick Coghlan, Josh Frey, Kathleen Alexander, Austin Partridge, John Gahan, and Mike Krzywicki

ABSENT: Jason Dale, Mike Circo, and Harold Sargus

STAFF PRESENT: Bruce Fountain, Community Development Director; Chris Solberg Deputy Community Development Director; Cale Brodersen, Associate Planner; Meghan Engberg, Permit Technician; Pat Dowse, City Engineer

Call to Order

The meeting was called to order by Vice-Chair Alexander at 6:30 p.m. Copies of the agenda and staff reports were made available to the public.

1. Approval of Meeting Minutes from February 16, 2023

Motion: Krzywicki moved, seconded by Malmquist, to **approve** the February 16, 2023, minutes.

RESULT:	Motion carried 7-0
MOTION BY:	Krzywicki
SECONDED BY:	Malmquist
AYES:	Coghlan, Gahan, Krzywicki, Malmquist, Partridge, Alexander, Frey
NAYS:	None
ABSTAINED:	None
ABSENT:	Dale, Circo, Sargus

2. Old Business

None.

3. New Business

A. PUD Amendment – Lots 1-3 & Outlot A Southport West Replat Eight – Southport Parkway, LLC

i. **Staff Report – Christopher Solberg, Deputy Community Development Director:**

Solberg said that the applicant, Southport Parkway, LLC is requesting a PUD amendment to allow for a commercial development with shared parking on Lots 1-3 and Outlot A of Southport West Replat Eight. The applicant is asking for a site plan amendment that would change the proposed restaurant on the far west side of the development to a drive-thru restaurant. The amendment would also change the west endcap of the existing strip mall building to allow for a drive-thru lane for a financial institution.

Staff reviewed the application and provided a number of comments that the applicant successfully addressed. Staff recommends approval of the PUD Site Plan Amendment for a commercial development on Lots 1-3 Southport West Replat Eight contingent upon satisfactory resolution of the issues stated within the staff report prior to City Council approval, as the PUD Site Plan request is consistent with the Comprehensive Plan and Zoning Ordinance.

ii. **Public Hearing:** Jeff Lake gave a presentation showing the development. He pointed out the tenants that have been announced, including PenFed Credit Union on the west endcap of the building, the drive-thru financial institution that is part of the PUD Amendment. He then spoke about Lot 3, where the Panda Express is planning on going, which is also part of the PUD Amendment.

On a site plan, Lake identified the additional lane and design changes for the ATM, and the changes on Lot 3 to accommodate the Panda Express.

Krzywicki asked if there have been any agreements made with nearby parking lots for employees to park.

Lake said that all of Southport West utilizes cross-parking allowed through the PUD and other agreements.

Coghlan inquired about the diagram that showed the bank and cars wrapping around in the teller line and then splitting between the teller line and atm. He asked if cars would also funnel into the same line to leave.

Lake said that they do.

Krzywicki talked about the diagram showing traffic flow in and out of the development.

Lake explained that off of Southport Parkway there is a right-in-only to feed traffic into the site, and that there are 2 egress points going into the shared drive with Embassy Suites.

Vice-Chair Alexander opened the Public Hearing.

Vice-Chair Alexander closed the Public Hearing as no members of the public came forward.

- iii. **Recommendation:** Coghlan moved, seconded by Frey, to recommend **approval**

RESULT:	Motion carried 7-0
MOTION BY:	Coghlan
SECONDED BY:	Frey
AYES:	Coghlan, Malmquist, Partridge, Gahan, Wetuski, Krzywicki,
NAYS:	Alexander
ABSTAINED:	None
ABSENT:	None
	Dale, Circo, Sargus

4. PUD Amendment – Lot 2 Woodhouse Place and Lots 1 & 2 Woodhouse Place Replat 2 – Woodhouse Auto Family
