PROFESSIONAL SERVICES AGREEMENT – HUMAN RESOURCES INFORMATION SYSTEM	◆ RESOLUTION ORDINANCE RECEIVE/FILE	WENDY LOWERY HUMAN RESOURCES DIRECTOR

SYNOPSIS

A resolution has been prepared to approve a Professional Services Agreement with Always Designing for People (ADP) and the negotiation of a contract for the implementation of a new Human Resources Information System (HRIS) in an amount not to exceed \$47,000.

FISCAL IMPACT

The FY23/FY24 Biennial Budget provides funding for this project. Projected annual savings of \$17,930 plus reduced labor costs.

RECOMMENDATION

Approval.

BACKGROUND

A team was formed in 2020 to select and evaluate the requirements for a new Human Resource Information System (HRIS). The HRIS is a unified system that manages an employee's life cycle from their first to last day of employment. Currently, multiple programs from different providers are used by the City to perform various Human Resources functions. The problem with using multiple systems is that they do not communicate with each other and rely primarily on manual entry, which requires a lot of manpower and can lead to human error. To address this issue, the team was made up of staff from different levels and departments to conduct an assessment to determine the functions and features needed to provide the best HRIS for the City

In December 2023, a Request for Proposals (RFP) was issued, and three responses were received. Two vendors that met the RFP requirements were selected to move forward. The annual pricing for the two vendors was as follows:

- ADP: \$38,252 with additional one-time implementation costs of \$8,000
- UKG: \$68,313 annually and \$31,375 for implementation

The HRIS team's input and preferences resulted in the recommendation to purchase the Always Designing for People (ADP) system. The City's current expenditure on multiple systems is \$56,182 annually. By selecting the ADP system, the City will save \$17,930 per year due to ADP's 10-year lock guarantee per employee on the annual service fee. Furthermore, the ADP system offers self-service capabilities and reduces the need for manual entry, leading to increased efficiencies in the Human Resources Department.

In conclusion, the Always Designing for People system is the best choice for the City's HRIS needs. It offers a comprehensive, unified system that is easy to use, accurate, and cost-effective. By selecting ADP, the City will save money, reduce errors, and improve the overall efficiency of its Human Resources functions.
