## Statement of Proposed Community Betterment Expenditures

The Proceeds from the 2014 fireworks stand will be used in much the same manor they were used for in 2013. All of the proceeds will be going to help fund three programs.

The first is assistance to the Tri-City Food Pantry that helps families in our community with food for their families.

The second is assistance to Parkview Elementary School with things that the teachers might need for their classrooms.

The third is our Giving Tree program which supplies food and gifts for needy families in the La Vista area, and also gifts to residents at the Grandville Villa Assisted Living center.

I understand that any sign which is installed that is inconsistent or in conflict with this application, the supporting drawings, or the sign regulations contained in the City's Unified Development Ordinance is a violation of the City of La Vista municipal code. I further understand that the inadvertent approval of a sign application by the City that is not in compliance with the sign regulations does not create any legal nonconforming status nor does it remove any obligation to bring the sign into compliance. I understand that no sign shall be installed until a sign permit has been approved by the City of La Vista and the associated sign fee has been paid. Once a sign permit has been approved, all sign installation work must be completed in six months or the permit will expire.

I believe that all of the information on this application and on drawings submitted in support of this application is accurate. I understand that any sign which is installed that is inconsistent or in conflict with this application, the supporting drawings, or the sign regulations contained in the City's Unified Development Ordinance is a violation of the City of La Vista municipal code. I further understand that the inadvertent approval of a sign application by the City that is not in compliance with the sign regulations does not create any legal nonconforming status nor does it remove any obligation to bring the sign into compliance. I understand that no sign shall be installed until a sign permit has been approved by the City of La Vista and the associated sign fee has been paid. Once a sign permit has been approved, all sign installation work must be completed in six months or the permit will expire.

I believe that all of the information on this application and on drawings submitted in support of this application is accurate. I understand that any sign which is installed that is inconsistent or in conflict with this application, the supporting drawings, or the sign regulations contained in the City's Unified Development Ordinance is a violation of the City of La Vista municipal code. I further understand that the inadvertent approval of a sign application by the City that is not in compliance with the sign regulations does not create any legal nonconforming status nor does it remove any obligation to bring the sign into compliance. I understand that no sign shall be installed until a sign permit has been approved by the City of La Vista and the associated sign fee has been paid. Once a sign permit has been approved, all sign installation work must be completed in six months or the permit will expire.

I believe that all of the information on this application and on drawings submitted in support of this application is accurate. I understand that any sign which is installed that is inconsistent or in conflict with this application, the supporting drawings, or the sign regulations contained in the City's Unified Development Ordinance is a violation of the City of La Vista municipal code. I further understand that the inadvertent approval of a sign application by the City that is not in compliance with the sign regulations does not create any legal nonconforming status nor does it remove any obligation to bring the sign into compliance. I understand that no sign shall be installed until a sign permit has been approved by the City of La Vista and the associated sign fee has been paid. Once a sign permit has been approved, all sign installation work must be completed in six months or the permit will expire.
