CITY OF LA VISTA
SAFETY COMMITTEE MEETING

MINUTES

May 17, 2011

I. CALL TO ORDER

A rescheduled meeting of the Safety Committee convened on May 17, 2011 at 9:00 AM at the La Vista Police Station, 7701 So. 96th St, La Vista, NE. Called to order by Sinnett.

Present: Bob Lausten, Rich Uhl, Jeff Sinnett, Pat Cavlovic, Jeff Siebels, guest Bryan Waugh.

Absent: Pam Buethe, Randy Ruhge, Rich Carstensen, Mary Alex.

II. APPROVAL OF MINUTES FROM OCTOBER MEETING

Due to a lack of a quorum at the January meeting the October minutes were presented here for approval.

Motion by Lausten, second by Uhl to approve minutes from October 2010 meeting. Minutes approved.

After a brief discussion regarding the posting of the minutes in each department it was concluded that in the future all minutes will be e-mailed to department heads as well as the safety committee members. The department heads may then determine if they would like to post the minutes within their departments.

There was not enough information to conduct sub-committee reports at this time so discussion moved directly to old and new business.

III. OLD BUSINESS

The last lunch and learn session held at the rec center was not well attended. It was determined that the department heads and safety committee members need to attend these sessions in an effort to encourage participation.

Lausten reported that one of the safety committee's goals in January 2010 was severe weather awareness. Tornado drills were performed during severe weather week, weather radios were placed, and fire drills were also performed. Several comments have been received stating that there is still some confusion as to where employees are supposed to go during a tornado or a fire. There are a number of new employees as well. After discussion this item was tabled and will be discussed again at the July meeting.

The new LEOP plan is now available. Capt DJ Barcal is the representative for the Police Dept and Melanie Smith is the representative for the Fire Dept.

CPR/AED training is currently being given to public works employees who did not receive it in the first round. Discussion was held regarding keeping records of employees who are CPR certified and their renewal dates. Refresher courses are faster and easier than allowing certifications to expire and having to re-certify. There have also been several employees who have inquired about first-aid training. This was offered a number of

years ago in conjunction with the CPR classes. It was determined that each department should budget for CPR and first-aid training and that each department head or their designee be responsible for tracking employees who are CPR certified and when their renewal dates are to stay current on training. There are AED's in nearly every building in the city now as well as all police cruisers. There was discussion in the past as to when to check the batteries in the AED's as well as who is responsible for checking them. Committee will look into this by the next meeting. There are several different types and brands of AED's currently in use and they are not all the same as far as checking batteries. Committee will look into determining the proper way to check batteries on each type of unit. There was also discussion regarding who is ultimately responsible for staying familiar with the proper use of the AED in their departments. While most employees have gone through the training on use of AED's, the actual unit used in each department may be slightly different than the ones employees were trained on. In the event of an actual emergency situation there needs to be someone responsible to be familiar with the AED unit. Do we ask department heads to be that person?

Safety awards. There is money set aside for this, but it has never been used. Discussion was held regarding what do we award for? How do we determine winners? How do we keep it fair? This item was tabled.

Safe driving flyer went out on paystubs last winter. This is one of the committee's goals for 2011. Bob Perry from LARM has been in contact with the safety committee regarding a curriculum for safe driving that he will be presenting to employees at no charge this fall. Sgt Waugh was on hand to discuss safe driving. He will work with Bob Perry to develop this. It will be similar to that which is offered through the safety council. It will include backing, signal violations, right of way, etc... There will be 2-4 hours of classroom training followed by course driving set-up at the sports complex parking lot. This will be offered several times over several weeks in September and will be mandatory for anyone that drives a city vehicle as well as any new employee that did not participate in the last session several years ago. Employee's who attended the session before are welcome to attend again and there is a possibility it could be extended to family members for a fee.

IV. NEW BUSINESS

Safety committee positions up for appointment. With no meeting in January there was no discussion regarding positions that may have been up for appointment/re-appointment in April. Discussion followed regarding the filling of these positions as well as attracting new faces to the safety committee. Pat C stated there were several in his department that may be interested in a position and are we supposed to be rotating new people into this committee. Do we post a sign-up sheet in each department and then the committee members can discuss filling open positions with interested parties before sending names onto council for approval? Committee will look into this and open appointments for the July meeting.

Several years ago the city conducted seat belt checks and received an award through the Highway Safety Council from the governor's office for compliance. The committee will again be doing this and will tie it into the safe driving campaign in the fall.

There was no health fair last year and with the push for the new wellness program there was discussion on whether this should be brought back. Committee feels this go hand in hand. If there is not enough interest in the full health fair, can we possibly tie cholesterol screening and/or blood sugar screening in with the flu shots this year? Something to bring awareness back to the employees.

Uhl reported that the Fire Dept will begin a new program starting in June. They will be conducting blood pressure screening including pulse, respirations, and pulse oxygen readings on Sundays at District 1 Fire Station on a drop-in basis from 1 to 3 every Sunday except holidays. There is a press release from the fire department attached to these minutes.

V. ADJOURNMENT

La Vista Fire to hold Blood Pressure Screening Clinics

Beginning June 5, the La Vista Volunteer Fire and Rescue Department will offer a new service to the community.

Free blood pressure screenings will be available at the District One Station, 8110 Park View Blvd, on a drop-in basis from 1 to 3pm. every Sunday with the exception of holidays.

On the first visit, individuals will be given a wallet size card to record their blood pressure for future visits.

High blood pressure, also known as hypertension, can be dangerous. If identified and controlled, many of the long term complications, such as damage to the arteries, heart, brain, kidneys and eyes, can be avoided. The complimentary screenings are offered as a first step in determining if further examination by a health care professional is necessary.

GILES CORNER SUBDIVISION-REVISED NO PARKING ZONE DESIGNATIONS	◆ RESOLUTION ORDINANCE RECEIVE/FILE	JOHN KOTTMANN CITY ENGINEER/ASSISTANT PUBLIC WORKS DIRECTOR

SYNOPSIS

A resolution has been prepared establishing additional "No Parking Zones" on three cul-de-sacs within the Giles Corner subdivision as recommended by the city engineer and authorizing the Public Works Department to install appropriate signs.

FISCAL IMPACT

The FY 10/11 General Fund budget provides funding for the proposed signage.

RECOMMENDATION

Approval

BACKGROUND

In response to concerns expressed by residents of the Giles Corner subdivision and in accordance with providing for the safe passage of vehicles and pedestrians on the streets within Giles Corner the designation of No Parking Zones is recommended in the following locations:

1. A No Parking Zone on the west side of the South 74th Avenue Circle cul-de-sac from the north line of Lot 16, Giles Corner subdivision to the south line of said Lot 16.
2. A No Parking Zone on the east side of the South 74th Avenue Circle cul-de-sac from the north line of Lot 22, Giles Corner subdivision to the south line of said Lot 22.
3. A No Parking Zone on the west side of the South 73rd Avenue Circle cul-de-sac from the north line of Lot 81, Giles Corner subdivision to the south line of Lot 83, Giles Corner subdivision.
4. A No Parking Zone on the east side of the South 73rd Avenue Circle cul-de-sac from the north line of Lot 88, Giles Corner subdivision to the south line of said Lot 88.
5. A No Parking Zone on the west side of the South 72nd Avenue Circle cul-de-sac from the north line of Lot 89, Giles Corner subdivision to the south line of Lot 91, Giles Corner subdivision.

These changes are proposed as a result of the City Engineer becoming more informed about the past practices of the Public Works Department in regards to establishing no parking zones on "short" cul-de-sacs versus "long" cul-de-sacs. "Short" cul-de-sacs are considered to be those with 3 or fewer homes on the throat section of the cul-de-sac. In short cul-de-sacs parking is prohibited throughout.

Attached is a map illustrating the proposed additional No Parking Zones.

WHEREAS, City Engineer has reviewed the plan and recommends approval,

NOW, THEREFORE, BE IT RESOLVED, that the "No Parking Zone" on the following locations is approved:

1. A No Parking Zone on the west side of the South 74th Avenue Circle cul-de-sac from the north line of Lot 16, Giles Corner subdivision to the south line of said Lot 16.
2. A No Parking Zone on the east side of the South 74th Avenue Circle cul-de-sac from the north line of Lot 22, Giles Corner subdivision to the south line of said Lot 22.

WHEREAS, Consultants primary contact person for LPA will be LPA's representative, who has been designated as being in responsible charge of the project, and who is referred to herein as RC or Responsible Charge.

NOW THEREFORE, in consideration of these facts, the parties hereto agree as follows:

SECTION 1. DEFINITIONS

The definitions set out on the attached Exhibit "D" are hereby incorporated by reference into this Task Order as if fully set out herein.

SECTION 2. NOTICE TO PROCEED AND COMPLETION

The LPA will issue Consultant a written Notice-to-Proceed when LPA determines that federal funding approval has been obtained for the project, and upon State concurrence that the form of this Task Order is acceptable for federal funding eligibility. Any work or services performed by Consultant on the project prior to the date specified in the written Notice-to-Proceed is not eligible for reimbursement.

The Consultant shall complete all work under this Task Order within 45 calendar days after the date of final acceptance of the project construction by the LPA. Any costs incurred by Consultant after the completion deadline are not eligible for federal funding reimbursement unless the Consultant has received an extension of time in writing from LPA and the LPA has federal funding approval for the extension of time.

SECTION 3. SCOPE OF SERVICES

LPA and Consultant understand that the Services provided by Consultant must be completed in accordance with all federal-aid reimbursement requirements and conditions. LPA and Consultant agree that the Scope of Services for this Task Order will be in two parts. Part one of the Scope of Services is contained within the General Statement set out below. Part two of the Scope of Services is set out on the document attached hereto as Exhibit "E", entitled Scope of Services and Fee Proposal, which is hereby fully incorporated herein and made a part hereof by this reference. Exhibit "E" is the result of the following process:

- (1) LPA provided Consultant with a document describing the detailed proposed Scope of Services for this project
- (2) Consultant made necessary and appropriate proposed additions, deletions, and revisions to LPA's detailed Scope of Services document
- (3) LPA and Consultant together reviewed the proposed Scope of Services, the proposed revisions and negotiated the final detailed Scope of Services and Fee Proposal document, which is attached as Exhibit "E".

- (4) On all construction projects, the Consultant shall develop an Environmental Compliance Checklist to track and record oversight of the environmental commitments. The Consultant shall develop a Project Commitment Checklist to track and record oversight of project specific commitments involving right of way, railroad, access, special provisions, etc. These checklists shall be developed by and maintained by the Consultant.

Consultant and LPA have agreed that Exhibit "E" sets out the Services reasonably necessary and the costs reasonably estimated for Consultant Services to adequately observe, monitor, inspect, measure, manage, document and report so that LPA's project is constructed by the contractor in compliance with the Construction Contract Documents (definition below), the Manuals (definition below), State and Federal law, rule or regulation and policy. The Consultant agrees to provide the services listed on Exhibit "E" for Project No. ENH-77(50), Control No. 22251, in Sarpy County, Nebraska.

General Statement: The Consultant services generally include, but are not limited to, project management, construction engineering, pre-construction staking, traffic control plans, conducting the preconstruction conference, staking and inspection and materials sampling and testing during project construction, monitoring environmental commitments, preparing as-built plans, progress computations, final computations, preparing contractor change orders, and work orders, and the necessary communication to insure project eligibility.

The Consultant shall review and have a working knowledge of the project plans, special provisions, standard specifications (the Standard Specifications for Highway Construction of NDOR (Current Edition), change orders and all other project related contract documents for the construction of LPA's Federal-Aid project. The project plans, special provisions, standard specifications, and other contract documents are hereby incorporated by reference into this agreement, as if they were fully set forth herein, and collectively, may be referred to as the Construction Contract Documents. Consultant shall assume the duties of "Inspector", (also referred to in the NDOR Construction Manual as "Construction Technician"); "Project Manager;" and also "Engineer" (unless the context of use of the term "Engineer" would otherwise require), as those terms are defined and duties set out in the Standard Specifications for Highway Construction (2007 Edition). Consultant shall assume that it is responsible for all duties of the "Engineer" unless notified otherwise by RC on behalf of LPA.

Additionally, Consultant shall review and have a working knowledge of the following authoritative guides and manuals related to highway construction, materials and federal aid reimbursement:

- (1) NDOR Construction Manual - Current Edition
- (2) Materials Sampling Guide
- (3) Standard Methods of Tests – 2006
- (4) The LPA Manual
- (5) The Manual on Uniform Traffic Control Devices

These documents are hereby incorporated herein by reference as if fully set forth, and these documents, collectively, may be referred to as the Manuals. Unless required otherwise by the Construction Contract Documents, Consultant shall be responsible for timely completion of all applicable checklists, tests, samples, duties, requirements and provisions of the Manuals. The Manuals will be used to determine what, when, how, the sequence, and other details of the work that must be provided by Consultant, whenever Consultant's duties in these respects are not clearly set out in the Construction Contract Documents. Consultant shall employ a sufficient number of qualified employees on the project to adequately observe, monitor, inspect, measure, manage, document, report and carry out the other duties of this agreement, so that the project is constructed by the contractor in compliance with the Construction Contract Documents, the Manuals, State and Federal law, rule or regulation and policy. Consultant shall fulfill all contract duties of inspection, project management and construction engineering for the project in a timely manner and shall communicate regularly about the progress of the construction with the LPA, through the RC, and, when appropriate for federal funding or eligibility issues, the State representative.

The Consultant shall be present at the project site when appropriate for each applicable phase of construction to inspect, observe, monitor, measure, manage, document and report on the progress of the work or as otherwise specifically agreed to by the LPA.

The parties understand that the Consultant is not responsible for the Contractor's means and methods of construction. To the extent the Construction Contract Documents and the Manuals specify sequencing of work, equipment requirements, or other construction methods, the Consultant shall keep the Owner's RC informed about the progress and quality of the portion of the work and shall advise the RC about observed or measured deficiencies in the work.

SECTION 4. FEES AND PAYMENTS

The general provisions concerning payment under this Task Order are set out on the attached Exhibit "F". The following provisions also apply:

- A. For performance of the professional Services listed on the attached Scope of Services and Fee Proposal for the project covered by this Task Order, the Consultant will be compensated for actual work performed up to a maximum of \$66,225.98. The Consultant's compensation shall not exceed the maximum without prior written approval of the LPA. For the labor work, the Consultant shall be compensated for acceptable costs in accordance with paragraph "D" of the attached Exhibit "F". Compensation for direct non-salary costs will be in accordance with paragraph "E" of the attached Exhibit "F". Progress and final payments will be based on receipted invoices or certified billings and compensation will be in accordance with 48 CFR 31.
- B. Occasionally, the conditions of this Task Order may change. This may be due to a change in scope which may require an adjustment of costs. In order to justify the need to modify this contract, the LPA must first determine that the situation meets the following criteria:
 - That the additional work is beyond the scope of services initially negotiated with Consultant; and
 - That the proposed Services are within the scope of the Request for Proposal under which Consultant was selected and contract entered into; and
 - That it is in the best interest of the LPA that the services be performed under this Task Order.

Once the need for a modification has been established, a Consultant Work Order will be prepared. The Consultant Work Order has been established to provide for costs to be incurred for additional work prior to execution of a supplemental agreement. The LPA shall use the process set out below:

- Consultant Work Order – DR Form 250, Exhibit "G" attached hereto and hereby made a part of this agreement, shall be used to describe and provide necessary justification for the modification of the scope of services, the deliverables, the schedule, and to document the estimated total additional fee. The Work Order must be executed to provide authorization

for the additional work and to specify when that work may begin. The Task Order will be supplemented after one or more Work Orders have been authorized and approved for funding. See Chapter 4 of the LPA Manual for the process to supplement the Task Order.

Services beyond the negotiated scope of services or fee proposal performed prior to the notice to proceed date will not be eligible for payment or for reimbursement with Federal funds.

SECTION 5. CONSULTANT TEAM MEMBERS

The Consultant has furnished a document containing a complete list of all Consultant's personnel who could possibly be involved in providing the Services required by this Task Order, along with each person's work classification and established hourly pay or labor rate. Also noted on this document are the names of the key personnel previously identified in a separate agreement between Consultant and the State of Nebraska. A true and correct copy of this document is attached hereto as EXHIBIT "B," and is incorporated into this Task Order by this reference. The labor rates set out on Exhibit "B" shall be used for payment in this Task Order. The labor rates invoiced by the consultant will be verified through the audit process. Consultant may make changes to the list of non-key personnel so long as any employee added to the list is qualified to perform the intended work.

The Consultant has also provided LPA with a document that identifies the employees from Exhibit "B" who LPA and Consultant agree will be part of the primary team for this project. The primary team is expected to be directly responsible for providing the field services for the work under this Task Order. This document shall specify the role that will be assigned to each member of the primary team. This document is attached hereto as EXHIBIT "H" and is incorporated herein by this reference. The primary team will include at least one person identified as a key person on Exhibit "B". During construction, the Consultant may make occasional temporary changes to the primary team. However, any permanent change to the primary team will require prior written approval from the LPA.

SECTION 6. GENERAL REQUIREMENTS:

- A. The Consultant shall advise the LPA when it appears any Disadvantaged Business Enterprise (DBE) working on the project is in need of assistance.
- B. The Consultant shall make every effort to assist the Contractor or any Subcontractor in interpreting Project Plans, Special Provisions, Standard Specifications, other Construction Contract Documents, or the Manuals.

- C. The Consultant will be present at the project site or at LPA's Offices beginning on the date specified in the LPA's notice to proceed to the contractor, unless project work has not begun at the site; or, with at least 24 hours notice, at any prior date (1) when contract work begins or when materials are delivered to the project that need to be tested, sampled or inspected to verify conformance to the requirements of the Construction Contract Documents, or (2) when requested by LPA.
- D. The performance of all work under this agreement will be subject to the review and approval by the LPA, with the right of review by the State or the FHWA.
- E. All reports of field tests performed by the Consultant will be submitted weekly to the LPA (one copy) and the State Representative (two copies). Consultant will take appropriate action to reject or remedy the work or materials that do not conform with the contract documents.
- F. The Consultant shall comply with all Federal, State and local laws, rules or regulations, policies or procedures, and ordinances applicable to the work contemplated in this Task Order.
- G. Project time delays attributed solely to the Contractor or the LPA, will constitute a basis for a request for an equivalent extension of time for the Consultant. The parties understand that federal reimbursement of extra compensation must be approved in advance as described in the Fees and Payments Section of this Task Order.
- H. The sampling and testing type, method and frequency must be completed by Consultant according to the current State of Nebraska Manuals, including the Materials Sampling Guide and the State Standard Methods of Tests (www.dor.state.ne.us), and the Construction Contract Documents, or as directed by LPA. For sampling or testing issues or situations that are not covered in the Construction Contract Documents or the Manuals, Consultant shall notify LPA, provide its advice and request that LPA decide what testing type, method or frequency should be applied for this project. Any test methods or procedures that are proposed to be used and are not covered by NDOR procedures must receive prior concurrence for use from NDOR and FHWA.

SECTION 7. OWNERSHIP OF DOCUMENTS:

The diaries, reports, field books, shop drawings, surveys, plans, specifications, maps, computations, charts, and electronic project data and all other project documents prepared or obtained by Consultant under the Task Order are the property of the LPA. The Consultant shall deliver these documents to the LPA at the conclusion of the project for inclusion in the LPA's

federal-aid project file. After the project is completed, if requested by Consultant, Consultant will be provided access to LPA's federal-aid project file.

State acknowledges that such data may not be appropriate for use on an extension of the work covered by this agreement or on other projects. Any use of the data for any purpose other than that for which it was intended without the opportunity for Consultant to review the data and modify it if necessary for the intended purpose will be at the State's sole risk and without legal exposure or liability to Consultant.

Further, Consultants' time sheets and payroll documents shall be kept in Consultants' files for at least three years after the project acceptance by FHWA.

SECTION 8. PROFESSIONAL PERFORMANCE

The Consultant understands that the LPA will rely on the professional training, experience, performance and ability of the Consultant. Examination by the LPA, State, or FHWA, or acceptance or use of, or acquiescence in the Consultant's work product, will not be considered to be a full and comprehensive examination and will not be considered approval of the Consultant's work product which would relieve the Consultant from liability or expense that would be connected with the Consultant's sole responsibility for the propriety and integrity of the professional work to be accomplished by the Consultant pursuant to this Task Order. The Consultant further understands that acceptance or approval of any of the work of the Consultant by the LPA or concurrence by the State/FHWA or of payment, partial or final, will not constitute a waiver of any rights of the LPA to recover from the Consultant, damages that are caused by the Consultant due to error, omission, or negligence of the Consultant in its work. That further, if due to error, omission, or negligence of the Consultant, the work product of the Consultant is found to be in error or there are omissions therein revealed during or after the construction of the project and revision, reconsideration or reworking of the Consultant's work product is necessary, the Consultant shall make such revisions without expense to the LPA. The Consultant shall respond to the notice of any errors, omissions or negligence within 24 hours and give immediate attention to necessary corrections. If the Consultant discovers errors in its work, it shall notify the LPA of the errors within 24 hours. Failure of the Consultant to notify the LPA will constitute a breach of this Task Order.

SECTION 9. CHANGE OF PLAN, ABANDONMENT, SUSPENSION AND TERMINATION:

The LPA has the absolute right to abandon, suspend or terminate the Task Order or to change the general scope of work at any time and such action on its part will in no event be deemed a breach of this Agreement. The LPA will give the Consultant seven days written notice of such change of plan, abandonment, suspension, or termination. Any necessary change in Scope of Services shall follow the Consultant Work Order Process outlined in the Fee and Payment Section above.

If the LPA abandons the work, subtracts from the work, suspends the work or terminates the work as presently outlined, the Consultant shall be compensated in accordance with the provisions of 48 CFR 31, provided however, that in case of suspension, abandonment, or termination for breach of this Task Order, the LPA will have the power to suspend payments, pending the Consultant's compliance with the provisions of this Task Order. Payment to Consultant will be prorated based on the percentage of work completed by the Consultant prior to abandonment or termination compared to the total amount of work contemplated by this Task Order.

The ownership of all of Consultant's project documents completed or partially completed at the time of such termination or abandonment will be the property of the LPA. The Consultant shall immediately deliver all documents to the LPA. All reports, records, results and working papers arising from the work of the Consultant will be the property of the LPA. - A. For performance of the work as outlined in this Task Order, the consultant will be compensated for actual work performed up to a maximum of \$66,225.98. The Consultant's compensation shall not exceed this maximum without prior written approval of the LPA. For the labor work, the Consultant shall be compensated for acceptable costs in accordance with paragraph "D" of this section. Compensation for direct non-salary costs will be in accordance with paragraph "E" of this section.
- B. The Consultant shall not receive reimbursement for any costs incurred by the Consultant prior to the Notice-to-Proceed date or after the completion deadline date stated in the Task Order with the LPA.
- C. Progress and final payments will be based on receipted invoices or certified billings and compensation will be in accordance with 48 CFR 31. Final payment will be based on an audit to be performed by the State at the conclusion of the work.
- D. Acceptable Costs: Under this Task Order, the acceptable costs will consist of the wages, overhead costs, and a Fee for Profit for employees' time they are working directly on the project.
 - (1) Wages are defined as the actual hours an employee works directly on the project multiplied by the established labor rates, as shown on Exhibit "B"
 - (a) Time records: The hours charged to the project must be supported by adequate time distribution records. The records must clearly indicate the distribution of hours to all activities on a daily basis for the entire pay period, and there must be a system in place to ensure that time charged to each activity is accurate.
 - (b) Hourly Rates: The hourly rates to be used in this Task Order shall be the rates set out in Exhibit "B".
 - (c) Annual adjustments: The hourly rates and personnel list for this Task Order may be reviewed and adjusted annually beginning one (1) year after full execution of the Master Agreement. Adjustment to the hourly rates and personnel list will be accomplished by a supplemental agreement to the Master Agreement. These adjusted rates and personnel lists shall be used for future Task Orders

but shall not be used to amend previously executed Task

Orders.

- (2) Overhead Costs: include indirect salary costs, indirect non-salary costs, and direct salary additives that are allowable in accordance with 48 CFR 31.

Overhead costs are to be allocated to the project as a percentage of direct labor costs (wages). The Consultant will be allowed to charge the project using its actual allowable overhead rate for the year the project labor was incurred. Overhead rate increases which occur during the project period will not be cause for an increase in the maximum amount established in paragraph A of this Exhibit. When an audit is performed by the State at the completion of the work, the actual allowable overhead rate for the year the project labor was incurred will be applied to the direct labor costs (wages) for that year. If a particular year's actual overhead has not yet been computed or approved by the State, the most recent years' accepted rate will be applied. The audit may result in additional funds due the Consultant or a cost due from the Consultant to the State.

- (3) Fee for Profit is calculated by multiplying the sum of the wages and overhead costs billed by the negotiated fee for profit rate of "12.85%". The consultant will be paid a "fee for profit" for only the services completed at the time the services are fulfilled.

- E. Direct Non-Salary Costs: Charges in this category include actual allowable expenses for personnel away from their base of permanent assignment, communication costs, document reproduction and printing costs, computer charges, special equipment and materials required for the project, special insurance premiums if required solely for this Task Order, and such other similar items.

A non-salary cost cannot be charged as a direct cost and also be included in the Consultant's overhead rate. If, for reasons of practicality, the consultant is treating a direct non-salary cost category, in its entirety, as an overhead cost, then costs from that category are not eligible to be billed to this project as a direct expense.

Payment for eligible direct non-salary costs must be made on receipted invoices whenever possible, or on certified billings of the Consultant. For purposes of standardization on this Task Order, the following expenses will be reimbursed at actual costs, not to exceed the rates as shown below.

Company Automobile/Pick-up truck - The reimbursement for automobile/pick-up truck mileage shall be the prevailing standard rate as established by the Internal Revenue Services through its Revenue Procedures - currently 55.5 cents per mile.

Company Survey Vehicle - Currently 58 cents per mile (2.5 cents above Company Automobile/Pick-up truck)

Privately Owned Vehicle - Actual reimbursement to employee, not to exceed rates shown for company vehicles outlined above

Automobile Rental - Actual reasonable cost

Air fare- Actual reasonable cost, giving the State all discounts

Lodging - **Actual cost – excluding taxes and fees:** Not to exceed the federal lodging reimbursement guidelines, as periodically determined by the U.S. General Services Administration – currently at the following rates:

Not to exceed *\$70.00 per person daily

*Omaha/Douglas County, not to exceed

\$101.00 per person daily

Meals - **Actual cost – including tax and gratuity:** Not to exceed the federal per meal reimbursement guidelines, as periodically determined by the U.S. General Services Administration – currently at the following rates:

	Statewide	Omaha/Douglas County
Breakfast	\$ 7.00	\$ 10.00
Lunch	11.00	15.00
Dinner	<u>23.00</u>	<u>31.00</u>
Totals	<u>\$41.00</u>	<u>\$56.00</u> (Includes tax and gratuity)

For the Consultant and its employees to be eligible for the meal allowance, the following criteria must be met.

 - (b) Employee is on overnight travel.

- Lunch:

No reimbursement for same day travel.

- Dinner:

or work location at or after 7:00 p.m., or
 - (b) Employee is on overnight travel.

Meals are not eligible for reimbursement if the

The Consultant shall note the actual lodging and meal costs in a
daily diary, expense report, or on the individual's time report
along with the time of departure to the project and time of return
to the headquarters town. The total daily meal costs must not
exceed \$41.00 per person, with the exception of Omaha/Douglas
County, which must not exceed \$56.00 per person (includes tax
and gratuity). When requested by LPA or State, the Consultant
will provide a copy of the meal receipts.

- F. The Consultant shall submit invoices to the LPA at a minimum of monthly intervals
and in accordance with the "LPA Procedure for Processing Invoices" located on the
State's webpage at: www.transportation.nebraska.gov/gov-aff/downloads.htm.

The invoices must present acceptable direct labor, actual overhead, actual
direct non-salary costs, as well as fee for profit. The invoices must identify each
employee by name and classification, the hours worked, and each individual's
acceptable labor cost applying the labor rates stated in Exhibit "B". Direct non-
salary expenses must be itemized and provide a complete description of each item
billed. See LPA Guidelines Manual for Federal-Aid projects, Chapter 13,
Section 13.3, paragraph 4, for additional requirements.

Each monthly invoice must be substantiated by a progress report which is to
include/address, as a minimum:

1. A description of the work completed for that period

2. A description of the work anticipated for the next pay period
3. Information needed from LPA
4. Percent of work completed to date
5. A completed "Cost Breakdown Form" which is located on the State's webpage at www.transportation.nebraska.gov/rfp.

If the Consultant does not submit a monthly invoice, it shall submit its progress report monthly.

- H. The State, on behalf of LPA, will make every effort to pay the Consultant within 30 days of receipt of the Consultant's invoices. Payments are dependent upon whether the monthly progress reports provide adequate substantiation for the work and whether the State determines that the work submitted is satisfactory. Upon determination that the work was adequately substantiated and satisfactory, payment will be made in the amount of 95 percent of the billed actual costs. The final 5% will be paid upon completion of the work required under this Task Order, acceptance by the LPA and State, and a final audit of all invoiced amounts has been completed by the State or its authorized representative. The Consultant agrees to reimburse the State for any overpayments discovered by the State or its authorized representative.

The acceptance by the Consultant of the final payment will constitute and operate as a release to the LPA and State for all claims and liability to the Consultant, its representatives, and assigns, for any and all things done, furnished, or relating to the services rendered by or in connection with the Master Agreement or any part thereof.

- I. The Consultant shall maintain all books, documents, papers, accounting records, and other evidence pertaining to costs incurred and shall make such materials available for examination at its office at all reasonable times during the agreement period and for three years from the date of final project acceptance by FHWA under this agreement. Such materials must be available for inspection by the State, FHWA, or any authorized representative of the federal government, and copies thereof shall be furnished by the Consultant, when requested.

Dear Mr. Robey;

On May 3, 2011, the property on 70th Street in La Vista was in violation of the City of La Vista's Municipal Code, Section 133.01 and a letter was sent that stated the grass needed mowed by May 8, 2011 or the City would correct the violation at the owner's expense. On May 18, 2011, the Public Works Department mowed and trimmed the yard, picked up branches, raked leaves and disposed of trash. The cost of \$158.20 was incurred by the City for the clean up. The cost breakdown is as follows:

Administrative Fee	\$	50.00
Mowing and clean up		
Two workers – 1 hour each		54.75
Equipment Cost		52.75
Material		.70
TOTAL	\$	<u>158.20</u>

Please remit \$158.20, payable to the City of La Vista, 8116 Park View Blvd., La Vista, Nebraska 68128, within 30 days. If payment is not received within 30 days of issuance of this statement, the City Council will, on July 19, 2011, take action to file the above referenced cost with the Sarpy County Treasurer as a special assessment for improvements against your property.

Thank you for your attention to this matter.

Sincerely,

Pamela A. Buethe, CMC
