BACKGROUND

On November 15, 2011, the City Council approved a resolution which approved an amendment to the EECBG Aid Agreement to utilize the balance of the awarded grant funds for additional LED lighting modules for traffic signals and for replacement of the fluorescent lighting tubes and ballasts in the Public Works Facility. Bids were solicited from five electrical contractors and two bids were received as set forth on the attached tabulation. Omaha Electric Service was the low bidder in the amount of \$16,134.60. This low bid exceeded the amount of funds available in the remainder of the grant. The low bidder has agreed to eliminate enough fixtures from the contract to bring the cost within available funds. The amount of the contract will be \$12,779.82 after the reduction in the number of fixtures. Omaha Electric Service is a qualified contractor and has proposed to supply materials in compliance with the specifications. It is recommended that a contract be awarded to them in an amount not to exceed \$12,779.82.

The bidding results are summarized as follows:

Vierregger Electric Co.	\$25,865.65
Omaha Electric Service	\$16,134.60
Omaha Electric Service (Adjusted Contract Price)	\$12,779.82
